

Christian Firmi

Full Stack Junior Web Developer & Designer

Expereinced, self-taught and motivated frontend/backend web developer with a passion for being very creative, I design and develop web apps with React, Javascript, PHP, CSS, MySQL, GraphQL, RESTful APIs and Node.js. I'm an experienced graphic designer creating dynamic product packages.

COURSES

Advanced React GraphQL

www.AdvancedReact.com

- Used GraphQL to create relational queries.
- JWT Authentication, User permissions, sending emails, uploading images, charging credit cards (stripe).
- Performed advanced mutation, fetching queries, caching data, managing local state, error and loading states with React

Laracasts PHP, MySQL

<https://laracasts.com/skills/php>

- HTML and PHP with CRUD operations with a local MySQL database creating, inserting, updating, tables and performing inner joins etc. HTTP protocols
- Code design patterns, learning popular frameworks like Laravel and Code Igniter.
- Created and loaded controllers and methods from URL and redirects with .htaccess.
- Server side form validation.

Barfriends Mobile App

Development, Design, Management

Barfriends Inc.

- Prototyped with Xcode written in Obj-C and designed UI/UX with Sketch.
- Worked with IOS and Android developers to build out features, managed milestones and technologies using Notion and SCRUM.
- Marketing strategies analysis of target demographic, stratigized business objectives.
- Manage AWS EC2 instances (Dev/Prod) servers for 20% faster development-testing-deployment lifecycles, manage AWS with tools like IAM , Snapshots, Certificates and Code Deploy.
- Succeful launches to the App Store and learning React Native to launch for Android to the Google Play Store.

Barfriends Website

Development, Design

www.Barfriends.com

- Built using ReactJS, Node.js, Next.js, styled-components and GraphQL.
- Succinct CSS design patterns and developed cross-platform theming strategy and fast ES6 asynchronous functions and modular components for a fast and clean codebase.
- Components tested with Enzyme and Jest to ensure everything will work in production.

Pepi's Pizza

Development, Design, Photography

<https://github.com/cfirmi/React-Pepis>

- Built with ReactJS, Node.js, Next.js, styled-components and GraphQL.
- Working on the theming and the CSS global naming conventions that will be used throughout the web app.

DEVELOPER SKILLS

Frontend

(3 yrs) CSS3, HTML, XML, JQuery, PHP, Javascript(ES6), SASS, SEO, Bootstrap, HTTP, web sockets (2) React, JSON, styled-components (1) MaterialUI, AJAX

Backend

(2.5 yrs) REST, MySQL, (2) Cloudinary*, Prisma*, GraphQL, Mongo

Libraries and Frameworks

(1.5 yrs) Next.js, Gatsby.js, Node.js, Redux, NPM, Apollo, express, Wordpress, GoogleAPI

Testing

(1 yr) Jest, Enzyme

TOOLS

IDE / Text Editors

(3 yrs)VS Code, (2)Xcode, Android Studio

Managment

(2 yrs) AWS, Google Console, Itunes Connect), Facebook Developer, Google API Console, Firebase, Git, (1) SourceTree

Workflow

(3 yrs) Github, BitBucket, (2) Slack, Trello, Notion, SCRUM

Design

(3 yrs) Sketch, Adobe Suite, Fusion 360, AutoDesk, WCAG 2.0 website accessibiltiy

Soft Skills

- Social Media Manager
- Team Managment
- Communication and Public Speaking
- Market Awareness

Scan on IOS for AppStore
